

Brandi Murray

(757)641-4410 • Orlando, Florida • pritchettb14@gmail.com

Career Objective

A hard-working and enthusiastic Full Stack Developer who is motivated, dedicated, and ready for whatever challenges life throws at me next! I have a passion for learning and an eye for detail.

Education

BA. in Digital Media

University of Central Florida

Specialization in Web & Mobile App Design

Expected Spring 2024

Certification of Full-Stack Development

University of Central Florida

Coding Boot Camp

March 2021 to June 2021

AA. in General Studies

Valencia College

Orlando, FL

May 2019 to Dec 2020

Related Skills and Experience

- Completed more than 15 volunteer hours with Orange County Public School as a Teacher Assistant, in an online setting to help the teacher maintain pace with lessons and assist those students who were falling behind in lesson plans.
- Joined the Valencia Future Educators club, attending meetings and workshops for lesson plans, passing the General Knowledge exam and more.
- Since my Full-Stack coding bootcamp graduation, I've attended weekly coding meetups ("Coding Happy Hours") online with over 100 web developers across the country to discuss coding challenges, resume building, portfolio reviews and more.

Work Experience

Junior Web Developer NEP Services Nov 2021 to Present – Remote

Responsibilities:

- Meet with team daily to communicate assignments and goals.
- Create unique and responsive sites for clients all across the US and Canada, using content management systems such as Joomla, Yootheme Pro for Joomla and Webflow.
- Complete requests sent by clients, via tickets, to adjust and correct any site problems reported.
- Review and correct any mistakes in peers' code and sites/applications before setting them live.

Freelance Web Developer August 2021 to Present – Remote

Responsibilities:

- Create beautiful and responsive websites and designs using Figma, CSS, HTML, JavaScript, the MERN stack and other languages per request of the client.
- Use the KanBan board/GitHub to set daily goals for projects and organize daily tasks, ensuring I meet my clients' deadlines.
- Use all available resources to solve complex coding questions and problems.

Cruise Specialist Norwegian Cruise Line July 2019 to February 2021 - Remote

Responsibilities:

- Assisted guests with their online Latitudes (customer) account which allows them to create and manage reservations.
- Managed password resets, online check in information and advised guests of their accounts and current balances as well processed payments and sent confirmations.
