Work Experience

Web Developer *NEP Services* **Nov 2021 to Present – Remote**

- Scrum meeting with team daily to communicate goals, assignments, clients' needs and other necessary information.
- Design unique and responsive sites for over 400 clients all across the US and Canada, using content management systems such as **Joomla**, **Yootheme Pro for Joomla** and **Webflow**.
- Complete website updates and requests sent by clients, via tickets, to adjust and correct any site problems reported.
- Review and correct any mistakes in peers' code, sites, and applications before setting them live.
- Set over 100 sites live on servers using **AWS**, **Lightsail**, **Cloudflare** and **GoDaddy**.
- Creator and manager of all client **Shopify** accounts.
- Consistently learning new technologies to ensure sites maintain relevancy and cutting-edge designs.

Freelance Web Developer **August 2021 to Jan 2022 – Remote**

- Create beautiful, responsive websites and designs using **Figma**, **CSS**, **HTML**, **JavaScript**, the **MERN stack** per request of the client.
- Use the **Kanban board/GitHub** to set daily goals for projects and organize daily tasks, ensuring I meet my clients' deadlines.
- Use all available resources to solve complex coding questions and problems.

Cruise Specialist *Norwegian Cruise Line* **July 2019 to February 2021 - Remote**

- Assisted guests with their online Latitudes (customer) account which allows them to create and manage reservations.

Education

Bachelor of Arts *University of Central Florida* *Orlando, FL* **September 2021 - May 2024**

- Major: **Digital Media - Web & Mobile App Development**

Certification of Full-Stack Web Development *UCF Coding Boot Camp* **March 2021 to June 2021**

Associate of Arts *Valencia College* *Orlando, FL* **May 2019 to Dec 2020**

Relevant Projects and Experience

- Since my Full-Stack coding bootcamp graduation in 2021, I've attended over 100 weekly coding meetups ("Coding Happy Hours") online with over 300 web developers across the country to discuss coding challenges, resume building, portfolio reviews and more.
